

OUR PROGRAMS

→ DISCOVERY CONCERTS

Ignite a child's passion for music through immersive concerts where students engage directly with orchestras, exploring a world of sounds and rhythms.

→ IN-SCHOOL ASSEMBLIES

Bring the magic of live classical music to schools, educating and entertaining children with performances that inspire musical curiosity and appreciation.

→ IN-SCHOOL ENRICHMENT

Support school music programs with specialized classes and lessons, enriching students' musical education regardless of budget constraints.

→ HONORS COACHING

Elevate established school band and orchestra programs with advanced coaching, fostering technical mastery and musical excellence.

→ EMERGING YOUNG ARTISTS

Showcase and nurture the talent of select young musicians, offering them professional performance experiences and mentorship opportunities.

→ CONDUCTING LAB

Develop the artistry and technique of emerging conductors through master classes focused on music expression, rehearsal dynamics, and leadership skills.

CRESCENDO PROJECT

*NURTURING EVERY
STEP OF THE
MUSICAL JOURNEY*

CRESCENDO PROJECT

The **Crescendo Project** is the Arapahoe Philharmonic's visionary initiative, designed to orchestrate a comprehensive musical journey for students from their first note to professional mastery.

Through a range of educational programs tailored for school's and organization's needs, we're dedicated to enriching lives, enhancing cognitive and emotional development, and fostering a deep, lifelong connection with music for students across the south Denver metro area.

We proudly offer these programs to all, including providing them at no cost to Title I schools and other organizations facing financial constraints, because we believe financial barriers should never silence potential.

Join us as we transform today's learners into tomorrow's virtuosos, one step at a time.

NURTURING EVERY STEP OF THE MUSICAL JOURNEY

THE JOURNEY

INTRODUCTION TO MUSIC

Every great journey starts with a single note. Our **Discovery Concerts** and **In-School Assemblies** open the door to a world where music is not just heard but felt and lived. Children experience hands-on, immersive musical experiences and the tactile, engaging aspect of trying new instruments, singing, and conducting.

ENRICHMENT THROUGH EDUCATION

Building harmony, one class at a time. Our **in-school enrichment** programs lay the foundation for lifelong musical exploration and excellence. Our professional musicians help schools develop or enhance their music programs, focusing on personalized instruction with an array of instruments to help stretch schools' and organizations' budgets.

ADVANCED MENTORSHIP

Elevating young talents to new heights. Through coaching and performance, we turn aspiring musicians into tomorrow's maestros. Our programs, **Honors Coaching** and **Emerging Young Artists**, showcase the tailored support for developing musicians, from technical skill enhancement to performance opportunities.

CULMINATION IN MASTERY

From student to conductor. Our **Conducting Labs** are where potential meets leadership, guiding the next generation of musical innovators. **The Conducting Lab** represents the pinnacle of the **Crescendo Project's** journey—transforming students into leaders in the musical world.
